The Factories Act, 1948 lays down a number of provisions on safety in manufacturing processes. This Act is enforced by the State Govts. and Administrations of Union Territories. Central Government have from time to time advised the Government of States and Union Territories for strengthening the Factory Inspectorates, streamlining the procedures and for stricter enforcement of the provisions of the law, so as to ensure that factories are inspected more often and they maintain better safety standards resulting in lower accident rates. The State Factory Inspectors are trained in the latest methods of accident prevention, augmentation of air monitoring and pollution control etc. There are also proposals for bringing out comprehensive amendments to the Factories Act, 1948 which would include, amongst others, special provisions relating to hazardous industries and workers' participation in safety management in such industries.
